Service – standard turnaround is 5-7 business days

<input type="checkbox"/>	<p>RATING ONLY: <i>Rating based on the doctor's WPI assessments. Apportionment applied. Corrections applied consistent with DEU practices: errors reading values from Figures and Tables in the Guides; math errors; combining errors.</i></p> <p>1 rating string, up to 20 pages = \$95 2 or more rating strings, and/or more than 20 pages to review = \$250/hour</p>	
<input type="checkbox"/>	<p>RATING WITH ANNOTATION: <i>Rating based on the doctor's WPI assessments. Corrections applied consistent with DEU practice: errors reading values from Figures and Tables in the Guides; math errors; combining errors. Apportionment applied.</i></p> <p>ANNOTATION: <i>a brief discussion of potential issues with the doctor's assessment of WPI, based on our review of documented clinical findings from the doctor's report. This Annotation service reports potential areas of WPI inflation (or potential understatement of WPI) without the time and expense of a full analysis.</i></p> <p><i>(e.g. "the documentation in the report does not appear to support the use of the ROM Method for the lumbar spine"; "the use of Gait Derangement for the knee would not apply if the instructions on page 529 of the Guides are followed".</i></p>	\$250/hour
<input type="checkbox"/>	<p>FULL ANALYSIS: <i>Review of doctors' reports, DEU Ratings, Deposition preparation, Almaraz/Guzman Analysis, etc. Full, in-depth analysis of reporting; critical review of the Guides instructions and the doctor's report documentation.</i></p> <p>Detailed review and discussion of each impairment assessment offered by the doctor. Medical report supporting documentation of clinical findings correlated with instructions, Figures, and Tables in the Guides; applicable instructions from the Guides referenced.</p> <p>TWO Sets of Ratings Provided: 1) based on the doctor's recommendations; 2) our recommendations based on our critical review.</p>	\$250/hour
